Preface:

**Journey Though Reading** was written primarily because the authors want to help the preschoolers learn and become aware of the world they are in.

Young as they are, their skills and potentials must be developed to the fullest. Hence, the activities in this book were carefully planned and arranged to meet all their needs. Lessons were based on every child's experiences. The interest and desires of every child to discover, investigate and explore that will result to effective communication were also considered while making this book.

Thus, reading this book and working on the activities will enable the preschoolers to listen, read, speak and write well with pleasure and satisfaction.
