

Journey through Reading – Preparatory

Author: **Estrella Balogo**

ISBN: **978-971-649-135-2**

Copyright: **1997**

Preface:

This book, **Journey through Reading**, will help the pre-elementary pupils reinforce whatever reading skills they have learned earlier. In fact, the exercises here are within their level and will prepare them for future work. Moreover, this activity book can be used by parents in helping their children do their assigned tasks at home.

However, proper supervision and guidance by the teacher should be provided so as to help the children finish their task independently and at their own pace. Thus, instructions should be explained clearly and properly to avoid frustration on the part of the learner. This is important because it is believed that ample activities and materials will enhance their learning skills.

The exercises in this book aims to build the children's confidence and to teach them various skills which are necessary in enhancing their reading readiness. Sounds, words, phrases, sentences, spelling and reading comprehension are given particular attention in order to prepare the pupils for more difficult exercises in later years.

The author wishes the readers will appreciate this book and will enjoy their journey through reading.
