Foreword:

Conversation, the most common form of communication is one characteristic of our social order. Our concern should be to make our conversation profitable both to ourselves and to those with whom we converse. The gift of speech should be used with care.

This new dictionary will:

- Teach the student how to spell words correctly.
- Teach the student the meaning of words.
- Teach the student how to make a thorough and intelligent interpretation of the meanings of words.
- Teach the student how to use the words in thoughtful, well-constructed sentences.
- Teach the student new words, that is words that are unfamiliar to the student yet frequently used.

The ability to communicate through speech gives man a decided advantage. Speech separates this gift of speech all the more, watch a deaf mute tries to impart something. With so much gesticulation, so much twisting and puckering of the lips, accompanied by grimaces and dilation of the eyeballs, he gets himself but partly understood.

Master the gift of speech with this helpful little dictionary of difficult words from two languages.
