Preface:

A cookbook helps marketing easier and faster. It is different when you know exactly what to buy. With your work made lighter, and your family happier, you will find the advantages of owning a cookbook.

Think of mother. How many hours a day does she spend in the kitchen? How many times have you helped her? It seems that her place is in the kitchen. She has to stay there to make sure that you and the other members of the family enjoy, and eat adequate meals every day. Think how mother has to plan, and prepare the food for you every day. Think how it would be for her to serve the foods just after coming from market. Just think of meat and fish served raw. Can you enjoy your meals that way?

Mother helps the members of the family by making them enjoy their meals. She cooks the food for them in many ways. Cooked foods are enjoyed by all. Some families get people who can cook for them. They are called cooks. But most mothers can cook very well.

This cookbook, **MOTHER'S TASTY RECIPES**, contains recipes that are practical, low-costing, tasty, delicious, and kitchen-tested. They are classified into fish and seafood, rice and noodle variations, vegetables and salads, poultry and meats, desserts, cool drinks and sandwiches, cakes and pastries, sweets and ice cream, and other assortments. It contains Filipino, Chinese, Spanish, American, native, and other foreign dishes.
